AirSpecs™

For humid environments. Designed to protect eye socket from stationary, low energy, non-fragmenting objects over 1mm in diameter.

AirSpecs™

Steel mesh "lens" designed for harvesters or arborists, who work around leaves, twigs, and small branches.

Product Features:

Stainless steel mesh "lens" provides limited hazard protection, while allowing air to freely pass through frame to prevent fogging.

Wraparound frame design with foam face seal for eye socket protection.

EVA closed cell foam provides comfortable face seal and long lasting durability.

Pantoscopic angle adjustment temple allows for a better fit on more faces.

Adjustable elastic fabric headband.

Meets ANSI Z87.1 standards.

Product No.	Product Description:
WELGG50	Black Stainless Steel Mesh "Lens;" Black Frame with EVA Foam Seal; Adjustable Elastic Fabric Strap

WARNING to USER

This goggle meets ANSI Z87.1-2012 Basic Eye Protector. It **SHOULD NOT BE USED** for high velocity or high mass projectiles, small particles, or liquids that can pass through the mesh "lens." Mesh "lens" **DOES NOT** provide UV protection, it only reduces available light by 60%. Use in a well lit area. The user **MUST** assure that the product can achieve a secure fit, determine if the product will provide adequate protection from all anticipated hazards, and wear the product at all times when exposed to hazards.

GOGGLE PROVIDES LIMITED PROTECTION AND IS NOT IMPENETRABLE OR UNBREAKABLE! Many applications require different or additional PPE or engineering controls. Inspect this product before each use and replace immediately if any excessive wear or damage exists.

FAILURE TO FOLLOW ABOVE WARNINGS AND INSTRUCTIONS MAY RESULT IN SERIOUS PERSONAL INJURY, INCLUDING BLINDNESS OR DEATH.
