TRACK 1

A HYBRID CONSTRUCTION
COMPOSITE/METAL

The combination of a **composite toe cap** (light and thermal insulating) and a **metal anti-perforation midsole** (better protection against the penetration of spike) provides the best level of protection in the construction environment.

Toe cap impact: **+29.9%** vs standard
Toe cap compression: **+57.9%** vs standard
Anti-perforation: **+23.7%** vs standard

TRACK 2

A COLD PROTECTION
COLD PERFORMANCE
SYSTEM

The combination of a **specific polyurethane sole** retaining its properties down to -30 °, a **quality fur-lining** and a **felt insock** provides excellent thermal insulation.

TRACK 3

A REINFORCED VAMP
"THE ROCK"

Improved **durability** of the upper against shocks and abrasion thanks to the addition of a PU coating on the vamp. **Cut Resistant (CR)** certified shoe. Tear resistance: **+34,2%** vs standard
