

Visionaire™

Premium quality, high performance safety goggles for splash, dust and mist.

GG-30G-AF
Grey

GG-30-AF
Clear

Meets ANSI D3, D4 standards.

Visionaire™

Extra wide SuperCoat™
Anti-Fog goggle with 4 large
ventilation slots & extra wide
elastic fabric strap.

Product Features:

- Superior inside anti-fog performance, frame has four large indirect ventilation slots, as well as anti-fog treatment on both sides (GG-30).
- Extreme comfort and broad field of vision, extra wide face flange for comfort. Fits over most prescription eyewear.
- Applications, dual lens is great for cold weather applications. Chemical splash, mist protection.
- Dual lens option (GG-35-AF), hard coated PC lens on the outside and acetate lens with permanent anti-fog coating on the inside. Insulates like a “thermopane” window for less condensation on the inside of the goggle.
